DISCLAIMER

Though all the efforts have been made to ensure the accuracy of the content on this report, the same should not be construed as a statement of law or used for any legal purposes. In case of any ambiguity or doubts, users are advised to verify/check with the appropriate Government Functionary/Authority and/or other source(s) and to obtain appropriate professional advice. This Report is based on voluntary uploading of data by the districts in a reference year. The responsibility for the accuracy of the data filled in the portal rests with the concerned District Education Officer (DEO) at the district level and the State Project Director (SPD) of Samagra Shiksha at the State level. For newly formed districts, the PRS (PARAKH Rashtriya Sarvekshan) scores are taken as the same of the old district from which the district is created. However, if the district is created from two or more districts, then average score of those districts is calculated. As a result, the district scores are calculated based on the remaining indicators and hence the score obtained by these Districts may not reflect true picture. The Ministry of Education, therefore, assumes no responsibility or liability for any errors or omissions in the data reported by the districts and used in the document.

Performance Grading Index (PGI) for Districts (PGI-D) of India

1. Introduction:

1.1 **Performance Grading Index (PGI)** is an index that measures the performance of States in school education. Department of School Education & Literacy (DoSEL) has so far released PGI report for States/ UTs for the years 2017-18 to 2024-25. The PGI has been conceptualized as a tool to catalyze transformational change in the field of school education with an objective of assessment of the relative performance of all the districts in a uniform scale. Based on the success of State PGI and to provide district level measures for effective assessments of educational attainment, DoSEL decided to extend PGI exercise to District level by creating a new PGI for District (PGI-D). The PGI-D is crafted with more focused objective of assessing districts on a common parameter with attention now shifting towards outcome measurement of educational policies.

1.2. Post implementation of National Education Policy 2020 (NEP 2020), PGI-D parameters used till 2021-22 are further aligned and revitalized in PGI-D from 2022-23. This helps District level authorities to monitor implementation of NEP in more effective ways.

2. Data Source

2.1 PGI-D is constructed based on identified indicators and domains. The data for PGI-D are drawn from several sources, viz., Unified District Information System for Education Plus (UDISE +), PARAKH Rashtriya Sarvekshan 2024 (PRS 2024) and the PRABANDH Portal.

2.2. The district wise data for the indicators related to minimum proficiency (Proficient and Advanced) of Class 3, Class 6, and Class 9 are provided by National Council for Education Research & Training (NCERT) from PRS 2024.

3. Methodology:

3.1 The architecture of the PGI-D emanates from the rationale that an efficient, inclusive and equitable school education system is contingent upon the regular monitoring of interconnected matrices of inputs, outputs and outcomes related to school education indicators, and the development of a quick response system for course correction in the entire system.

3.2 The PGI-D framework comprises a total weightage of 600 points across 70 indicators, which are grouped under 6 categories viz., Outcomes, Effective Classroom Transaction, Infrastructure Facilities & Student Entitlements, School Safety & Child Protection, Digital Learning and Governance Process. These categories are further divided into 11 domains, viz., Learning Outcomes and Quality (LOQ), Access Outcomes (AO), Teacher Availability and Professional Development Outcomes (TAPDO), Learning Management (LM), Learning Enrichment Activities (LEA), Infrastructure, Facilities, Student Entitlements (IF&SE), School Safety and Child Protection (SS&CP), Digital Learning (DL), Funds Convergence and Utilisation (FCU), Attendance Monitoring Systems (AMS) and School Leadership Development (SLD). Following the same approach of State PGI, districts are graded. Ranking approach is not followed to discourage the practice of one improving only at the cost of others, “thereby casting a stigma of underperformance on the latter”. Ultimate objective of PGI-D is to help the districts to priorities areas for intervention in school education and thus improve to reach the highest grade.

3.3 The category and domain wise summary of Indicators and its weightage in their performance in overall PGI-D index is presented below:

Categories	Domain	Indicators	Score
1. Outcomes	Learning Outcomes & Quality (LOQ)	9	180
	Access Outcomes (AO)	7	70
	Teacher Availability & Professional Development Outcome (TAPDO)	5	40
2. Effective Classroom Transaction (ECT)	Learning Management (LM)	8	60
	Learning Enrichment Activities (LEA)	11	30
3 Infrastructure, Facilities, Student Entitlements (IF & SE)		11	51
4. School Safety and Child Protection (SS &CP)		7	35
5 Digital Learning (DL)		5	50
6 Governance Processes (GP)	Funds Convergence and Utilisation (FCU)	2	14
	Attendance Monitoring Systems (AMS)	3	40
	School Leadership Development (SLD)	2	30
Grand total	11	70	600

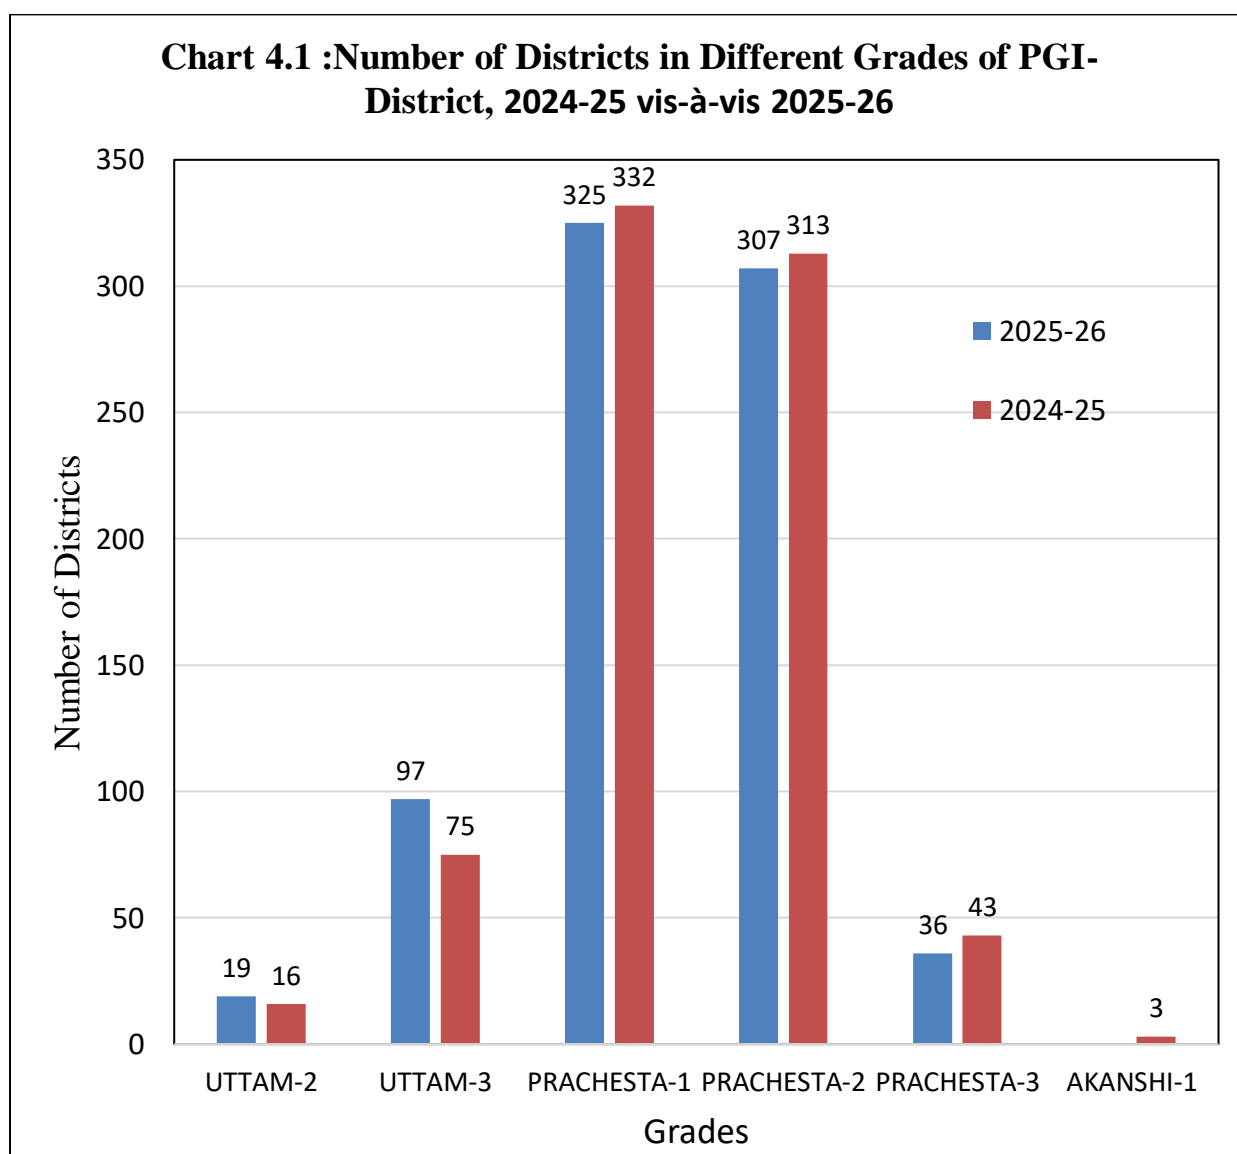

3.4 The points assigned to indicators ranges from 2 to 20, whereas points assigned to each Domain ranges from 14 to 180. While structuring PGI-D weightage, qualitative indicators in domains viz., Learning Outcomes & Quality (LOQ), Access Outcomes (AO), Teacher Availability & Professional Development Outcome (TAPDO), Learning Management (LM), Learning Enrichment Activities (LEA) put together have a weight of 380 point or 63 % weightage. Therefore, PGI-D is expected to measure district level school performance more closely. The details of indicators/sub-indicators and their respective weight are at **Annexure-2**. This benchmark/optimum level for each indicator has been carefully identified and the DoSEL has ensured that these are reasonable.

3.5 The score of each indicator is arrived by multiplying proportionate score of the indicator with weightage of that indicator. For example, for the indicator proficiency in Mathematics in grade 6, total weight was 20 and if a given district has 50 % students of grade 6 who achieved minimum proficiency in Mathematics, then score obtained for this indicator is $20 \times 0.5=10$. However, in case of a few Indicators, a lower value would score a higher weightage, e.g., the Outcome category, viz., percentage of Government school teachers in the district who have been assigned non-school duties pertaining to Departments other than Elections and Population Census (Government Schools). In this case, districts assigned maximum non-teaching duties other than Elections and Population Census to teachers will get minimum marks whereas district which has not assigned any non-teaching duties other than Elections and Population Census to teachers will get full marks.

3.6. In PGI-D, the nomenclature for PGI scores is classified into various grades. Highest achievable Grade in PGI-D is **Utkarsh**, which is for Districts scoring more than 90% of the total points in that category or overall. The category/overall scores are then reduced by an equal width of 10 % of total points in that category or overall points for arriving to the next Grade. For example, **Uttam-1** is for the district having PGI score of 81% to 90%, **Uttam-2**: 71% to 80%, **Uttam-3**: 61% to 70%, **Prachesta-1**:51% to 60%, **Prachesta -2**: 41% to 50%, **Prachesta-3**: 31% to 40%, **Akanshi-1**:21% to 30%, **Akanshi-2**: 11% to 20%. The last one, namely **Akanshi-3** is for scores upto 10%. Thus, position of a district in different grading categories is relative and can change depending upon its performance in each year. At the same time, all districts can occupy the highest-Grade **Utkarsh** simultaneously, and that is the ultimate objective of this exercise. The PGI-D 2025–26 comprises 784 districts, whereas the PGI-D 2024–25 comprised 782 districts. This is due to addition of 2 new districts during 2025-26 in Arunachal Pradesh namely Bichom and Keyi Panyor.

4. Summary of PGI-D:

4.1 Chart 4.1 represents the number of districts by grades attained, 2024-25 vis-à-vis 2025-26. None of the districts attained the highest grade, *Utkarsh and Uttam-1* in either 2024-25 or 2025-26 implying there is ample scope for the districts to further improve their performance in future years. 19 districts reached the Uttam-2 grade in 2025–26 by achieving more than 70% of the total score, compared with 16 districts in 2024–25. Furthermore, number of districts in Uttam-3 grade has increased from 75 to 97 and Prachesta-1 grade has decreased from 332 to 325 during 2025-26 vis-à-vis 2024-25 showing improvements.

4.2 Improvements in 2025-26 as compared to 2024-25: A major purpose of the PGI is creation of an environment that would nudge each district to improve its performance continuously. Total of 473 districts improved their PGI score in 2025-26 as compared to 2024-25. Out of these, 89 districts have made Grade level improvement. Overall, 664 districts remained in the same grade in both 2025-26 and 2024-25, and 29 districts slipped one level in 2025-26 as compared to 2024-25.

4.3 The details of overall as well as category wise PGI-D scores for 2025-26 by District and State are given at **Annexure-1**.

5. **Category/ Domain wise PGI district score card:** The PGI-D scores are the aggregate score of 6 categories of educational attainment of districts viz., Outcomes, Effective Classroom Interactions, Infrastructure Facilities & Student’s Entitlements, School Safety & Child Protection, Digital Learning and Governance Process. The performance of districts in each of these categories is presented in this section. The domain wise/ category analysis brings out areas of good practices and weak links among districts providing insights into future action plan.

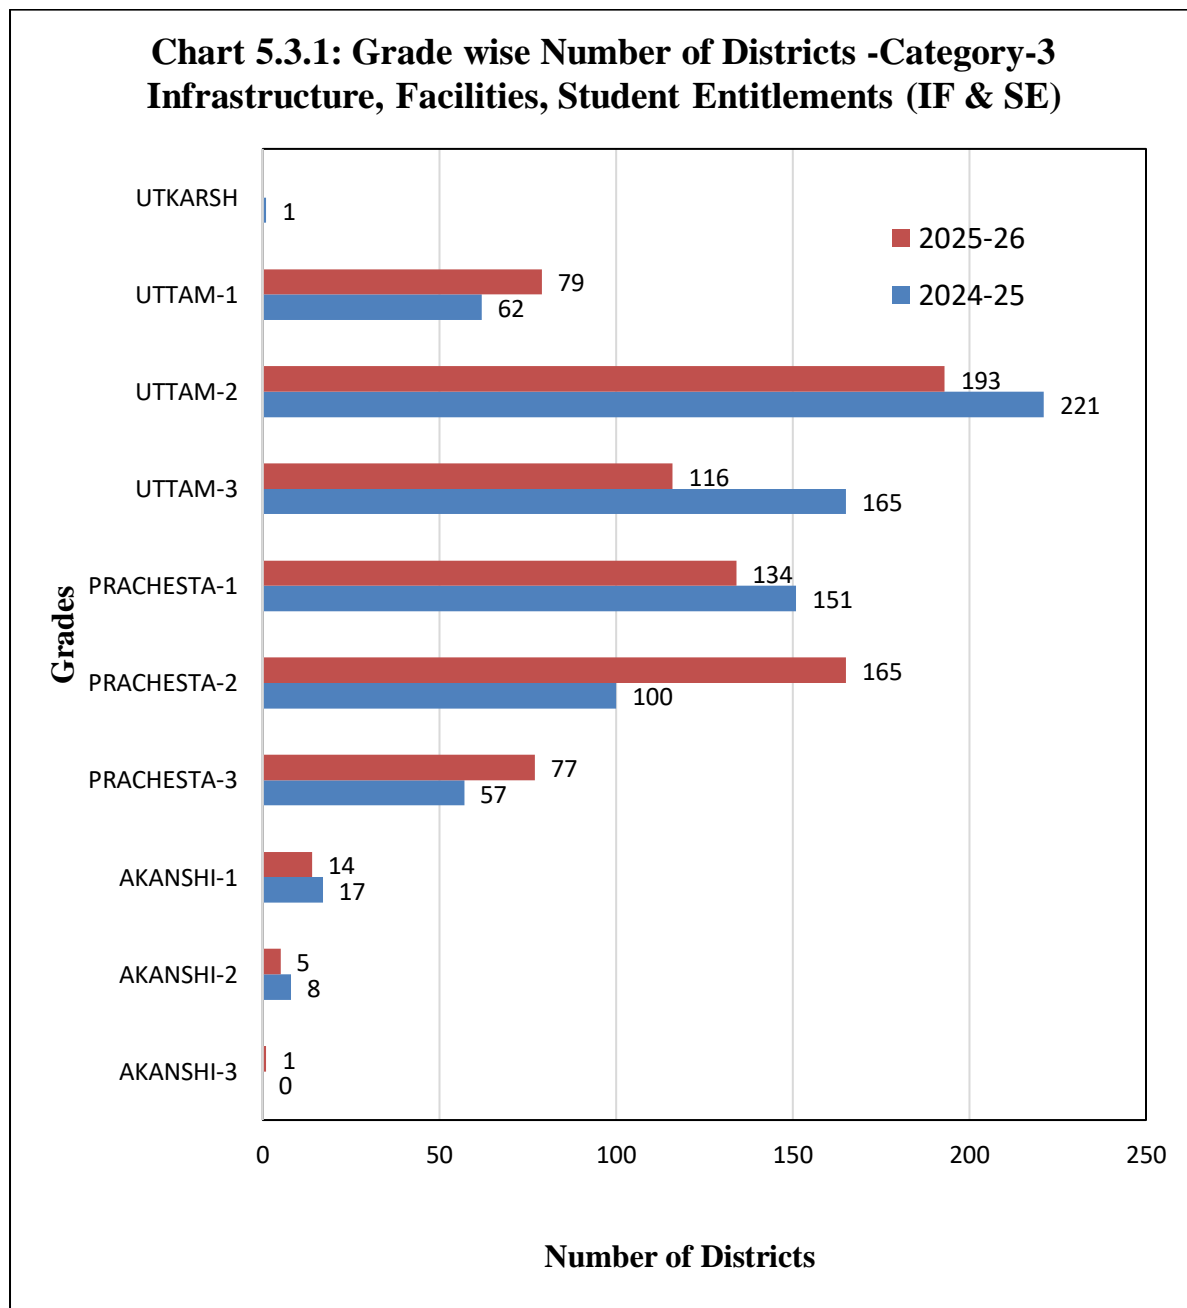

5.1 Chart5.1.1 depicts performance of districts in the 1st **Category- Outcomes** which carries 290 points or 48% of total points and measures progress of districts in qualitative terms during 2025-26. 9 districts have improved their score by more than 10%. No district has attained highest grade of “Utkarsh” in 2025-26 but one district has attained Uttam-1 grade and 13 districts have reached “Uttam-2” grade as compared to 16 in 2024-25. 462 districts have improved their score in outcomes, out of which 50 districts have made grade level improvement.

5.2 The Chart 5.2.1 shows the performance of districts in various grades in the 2nd category- **Effective Classroom Transactions** during 2024-25 and 2025-26. Overall, 672 districts made improvement in scores in the category- Effective Classroom Transactions, of which 5 districts improved their score by over 20 % and 67 districts have improved their score by over 10 % resulting into grade level improvement in 2025-26 as compared to 2024-25. A total of 500 districts improved their scores but remained in the same grade. The number of districts attaining the “Uttam-1” grade increased to 65 from 37, while the number of districts attaining the “Uttam-2” grade increased to 244 from 198.

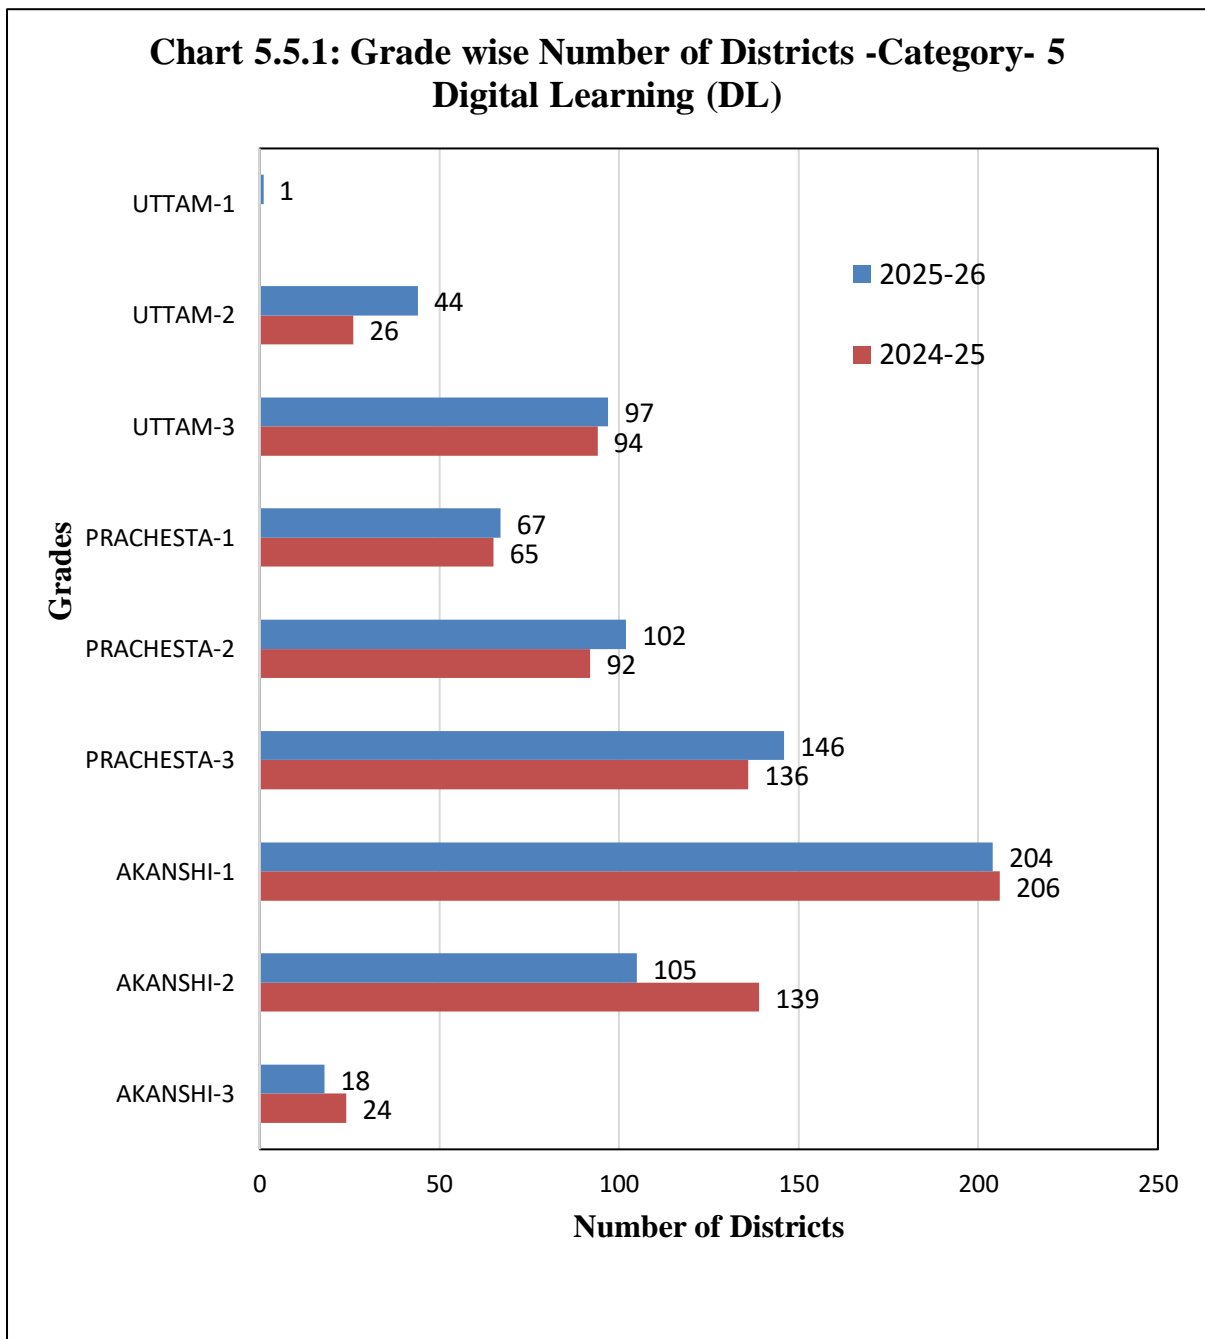

5.3 Chart 5.3.1 depicts the attainment of districts in 3rd category- **Infrastructure, Facilities, Student Entitlements (IF & SE)** along with scores during 2024-25 and 2025-26. Under this category, overall, 391 districts improved their scores in 2025–26 compared with 2024–25. Out of these, 44 districts made more than 20 % improvement in scores and 69 districts made over 10 % improvement in score and implying Grade level improvement and a total of 174 district made grade level improvement. Further, 217 districts improved their scores while remaining in the same grade. No district reached the “Utkarsh” grade. However, the number of districts attaining the “Uttam-1” grade increased from 62 to 79.

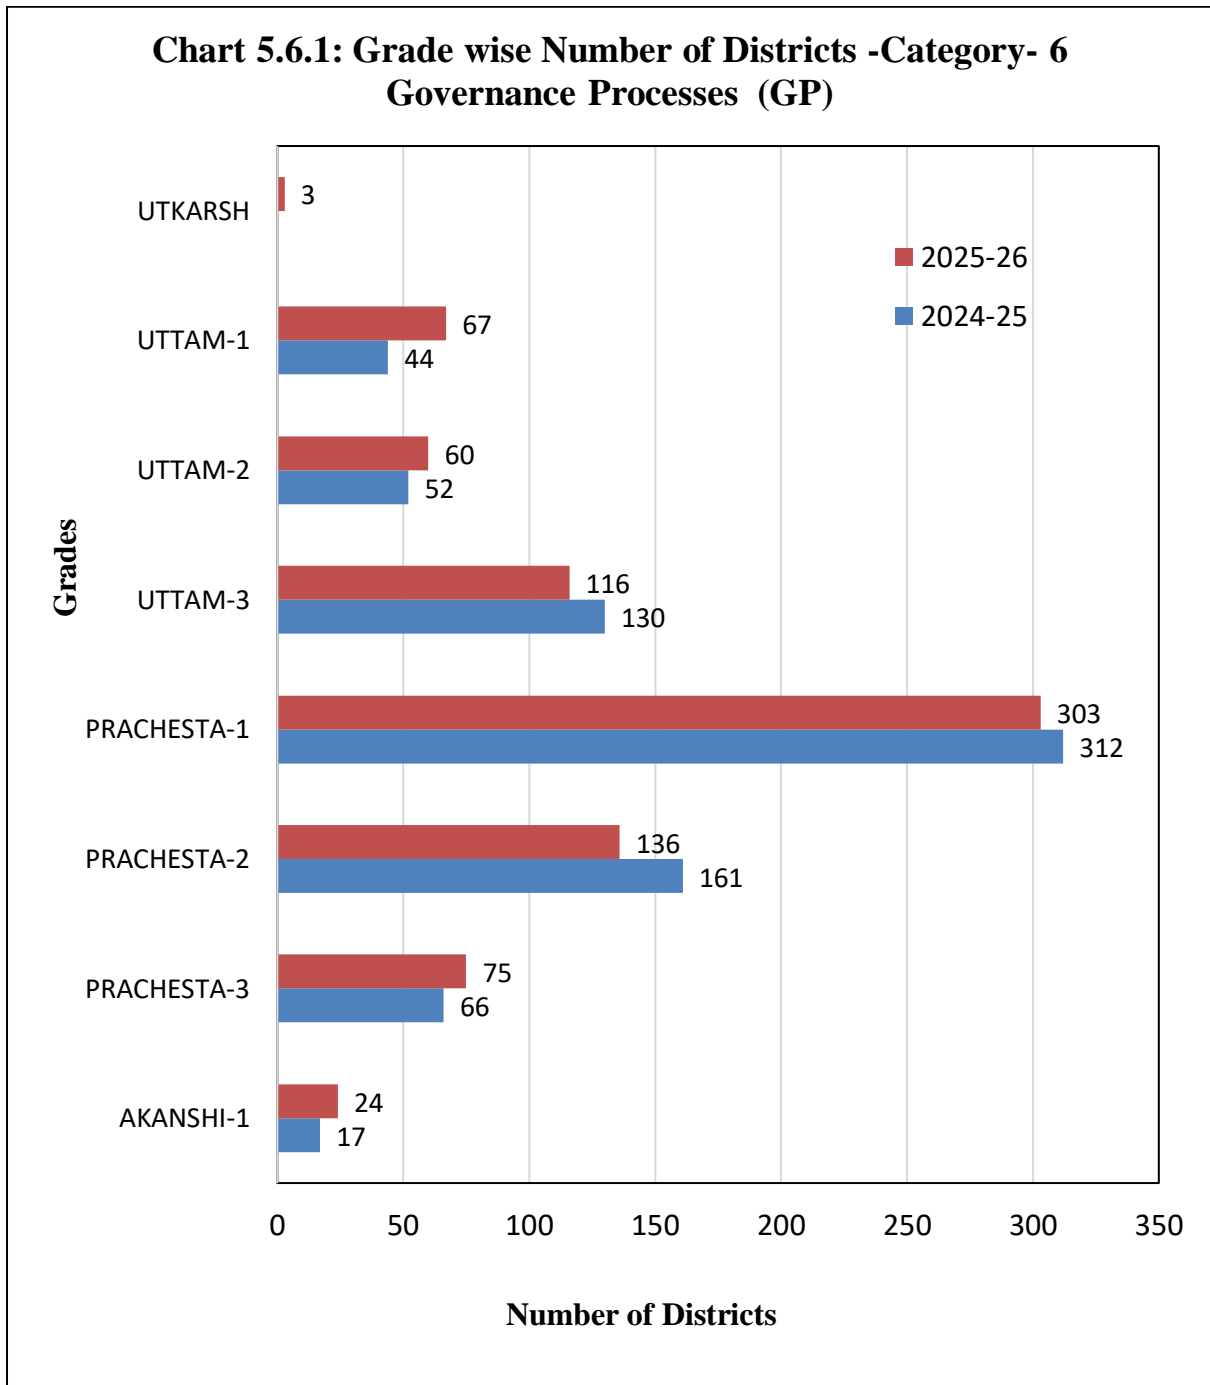

5.4 Chart 5.4.1 present grade wise number of districts in the **4th category- School Safety and Child Protection (SS &CP)** along with scores in 2024-25 and 2025-26. In this category, 46 districts recorded a score improvement of more than 20% in 2025–26 compared with 2024–25. Another 74 districts recorded a score improvement of more than 10%, resulting in grade-level improvement. Overall, 719 districts showed improvement in 2025–26 compared with 2024–25. Further, 11 districts reached the “Utkarsh” grade, compared with 7 in 2024–25.

5.5 The Chart5.5.1 represents the details of districts in various grades in the 5th category- **Digital Learning (DL)** along with scores in 2024-25 and 2025-26. Under the Digital Learning category, 12 districts showed an improvement of more than 10% in their scores in 2025–26 compared with 2024–25, resulting in grade-level progress. Overall, 770 districts improved their scores, out of which 315 districts achieved grade-level improvement. One district reached the “Uttam-1” grade, while 44 districts moved to the “Uttam-2” grade, up from 26 districts.

5.6 The Chart 5.6.1 indicates the details of districts in 6th category- Governance Processes (GP) along with grade scores in 2024-25 and 2025-26. In this category, 19 districts achieved more than 20% improvement in scores, and another 53 districts achieved more than 10% improvement in category scores, indicating significant grade-level improvement. Further, 3 districts reached the “Utkarsh” grade, and the number of districts in the “Uttam-1” grade increased from 44 to 67.
